

Networking during the Conference

During the event you can see the list of other participants on the right-hand side. You can also use the search function to look for specific names. If you see/find a person you know, you can click on the name and get to a submenu where you can send her/him a message or start a video call. You can also schedule a meeting for a later point in time.

If you schedule a meeting you can also invite further people to this meeting. A networking meeting can have up to 5 participants.

You can make networking meetings during the whole conference. We recommend using the scheduled "Networking" times in the program.

Questions to Speakers

During the paper or panel sessions only the authors/panelist can speak. If you want to raise questions to the speakers, you can use the Q&A functionalities, which you find on the right-hand side under “Session” → “Q&A”.
