

Sixth International Conference and Exhibition on Information Security

Espoo (Helsinki), Finland
May 23—25, 1990

COMPUTER SECURITY AND INFORMATION INTEGRITY IN OUR CHANGING WORLD

TALENTUM

The Gateway Plan

Finnair has devised the Gateway Plan – short transit times in Helsinki on your way to destinations throughout Europe, North America and the Far East.

Often the stop is about an hour. Just right for a leisurely walk from your arrival gate, some duty-free shopping, a relaxing pause in the First Class or Executive lounge, and to your international departure. The airport is laid out in one terminal so that the walk takes less than 5 minutes. The short stop often means shorter total travel times.

Helsinki is the fastest gateway east and west.

A fresh look at flying
 **FINNAIR**

THE PRIME MINISTER'S GREETING TO THE SIXTH INTERNATIONAL CONFERENCE AND EXHIBITION ON INFORMATION SECURITY

Information technology has been the most rapidly advancing field of technology during past decades and we have every reason to expect the trend to continue at an even faster pace. This development has been a result of a constantly growing production of information, which is needed in the increasingly diverse and complex decision-making process of society.

The development of information technology is thus based on the needs of people and communities. Consequently, information technology must not be seen as a value in and of itself. Instead it must be perceived and used as an instrument in the promotion of the well-being of society and mankind.

The world is currently going through an intensive period of integration and opening-up of states. Finland has been and will be ready to contribute to and participate in this positive development.

Openness, cooperation and integration are concepts which characterize international relations.

The atmosphere of overall liberalization is also reflected in demands of increased liberalization in the flow of information. Information technology which is being developed or is already available should be an effective source of information to people, industries and nations. At the same time, however, people, industries and nations must be guaranteed information security. Reconciling these two requirements which appear to be opposites, poses a problem.

We have ample evidence, also reported in public, about sensational intrusions into confidential data. This calls for a serious study of the need for building secure information systems. Besides so-called hacking, data transfers, the distribution and the accessibility of information are seriously threatened by breakdowns, accidents and crises. Therefore, the development of security systems, their assessment and exchange of experiences are of vital importance.

Having studied the program of the Sixth International Conference and Exhibition on Information Security, I noted with much pleasure the diversity in which issues pertaining to information security will be discussed. I believe that the conference will offer an excellent forum to study the theoretical aspects of information security as well as the practical achievements of the most advanced information technology.

I have the pleasure to welcome to Finland all the delegates of this conference and I hope that the exchange and transfer of information in the conference will act as a stimulant to new ideas.

Harri Holkeri
Prime Minister

WELCOME TO ESPOO

It is my pleasure, on behalf of the City of Espoo, to extend a warm welcome to all delegates of the IFIP/SEC'90 Conference. I hope you will enjoy your stay in Espoo, that your conference will be successful and that despite your tight schedule you will nevertheless find time to see something of our city.

We are particularly pleased that you have chosen Espoo to hold your congress, because Espoo is the Finnish flag-bearer for technological development. It is the home of both the University of Technology and of large sections of the Technical Research Centre of Finland. Numerous Finnish and international hi-tech companies have also set up in Espoo and given the city a characteristic stamp.

Espoo is an unusual city in certain other ways, too. It has grown up rapidly alongside Helsinki, and instead of having one main centre it has five, each of them different and each corresponding in population to a medium-sized provincial Finnish town. The best-known centre is probably Tapiola, built from the early 1950s onwards and famous even outside Finland as a superb example of Finnish urban planning. But I can equally well recommend a visit to Otaniemi, Olari, Kivenlahti or any of the other parts of the city.

Security is becoming one of the key problems of modern information technology, and solving it will require extensive international cooperation. The IFIP/SEC'90 Conference therefore faces a sizable task in making its contribution to this field.

I wish your Conference every possible success. Enjoy yourselves in Espoo.

Pekka Löyttyniemi
City Manager

The sixth International Conference and Exhibition will be organized by Technical Committee 11 (TC 11) of the International Federation for Information Processing (IFIP) and the Finnish Information Processing Association. This time the emphasis will be on the computer security and information integrity in our changing world. As our world will change we must attempt to anticipate tomorrow's problems. IFIP/SEC'90 will be the platform for a new phase in computer security and information integrity, challenging the problems of the nineties. On behalf of the Steering Committee and the organizers, IFIP TC 11 and its Chairman, Dr. William J. Caelli of Australia, as well as the Finnish Information Processing Association I look forward to welcoming you to the Conference and to Finland in May 1990.

Juhani Saari
Chairman
Steering Committee

The Conference and Exhibition will be arranged at the leading Finnish congress and convention centre Dipoli in Espoo, only ten minutes from Helsinki city centre. Dipoli is situated on a beautiful seaside resort and the building is world-famous for its architecture of rugged natural beauty and unique utilization of space.

Following the main theme of the Conference the internationally acknowledged information security experts will deal with a variety of topics concerning information security developments and present practical interests. The objective is to increase the readiness to control the risks in information processing systems; the main target group will be the management of companies and organizations that are in charge of developing information systems, professionals in the field of information technology and information security, professionals in EDP-auditing, internal and external auditors as well as all other people carrying on different professions who are familiar with information security. Various hardware and software solutions to control the information security risks will be exhibited in the Exhibition.

Furthermore, the delegates and their companions will also have an opportunity for recreation. Concerts and receptions will be available, and trips to the archipelago and places of interest in the vicinity of Helsinki will be organized. It is worth remembering that the white Nordic nights and the Finnish sauna are at their best. On behalf of the Organizing Committee I welcome you to attend the Conference and enjoy the Finnish spring.

Ilmo Silvennoinen
Chairman
Organizing Committee

KEYNOTE SPEAKERS

Charles Cresson Wood is an independent San Francisco based Information systems security consultant. Although well-versed in a variety of information security issues, he excels in the design of secure data communication systems, establishing organizational infrastructures to support computer and data communications systems security efforts, and information systems security audits.

Mr. Wood has been an information security management consultant at SRI International (formerly Stanford Research Institute), and a chief data communications consultant at Bank of America.

Involved in the information systems security field since 1977, he has done information security consulting and research with over fifty organizations including those in financial services, manufacturing, transportation, computer and data communications, and government.

Mr. Wood holds an MBA in financial information systems and a BSE in accounting, both from the Wharton School at the University of Pennsylvania.

He also holds an MSE degree in computer science from the same university, and has passed the Certified Public Accountant (CPA) and Certified Information Systems Auditor (CISA) examinations.

Rüdiger Dierstein studied mathematics and physics at the University of Stuttgart. Then he began to work in computer sciences in 1958. In 1966 he also received a Masters degree in Astro- and Aeronautics during a postgraduate scholarship at the Massachusetts Institute of Technology (MIT) in Cambridge/USA.

Since 1961 he participated in scientific work at the German Aerospace Research Establishment (DLR), mainly on various problems in astronautical guidance, space navigation, and space trajectories. His activities and publications on privacy and data security started in 1973. Since several years he is also lecturing on these and other fields of computer sciences at the Munich University of Technology.

Ib Bentzien is a Bachelor of Commerce, State Authorized Public Accountant (Denmark), and a Certified Information System Auditor (CISA). He is audit manager at Bikuben Denmark. Earlier he was manager for the Copenhagen Area in Sparekassen SDS, and he has nearly 30 years' experience in auditing.

Mr. Bentzien is a vice president of EDP Auditors Association (EDPAA) Denmark Chapter. He is also lecturer at the Copenhagen School of Economics in EDP auditing, and a member of the IFIP working group TC 11.5. Furthermore, he is the chairman of the organizing committee for the 5th European EDP Security Conference to be held in Copenhagen, September 3—6, 1990.

Donn B. Parker is a senior information systems management consultant and researcher on information and computer security and crime, as well as an international lecturer on these topics. Mr. Parker is the creator of the International Information Integrity Institute (I-4) at SRI International, providing ongoing services to many of the largest corporations in the world. He has been active in the Association for Computing Machinery and American Federation of Information Processing Societies as a national officer and committee chairman on professional standards and practices.

Mr. Parker has over 35 years experience in the computer field in computer programming, computer systems management, and research. Mr. Parker is B.A. and M.A. in mathematics from the University of Berkeley. Being now at SRI International, his former professional experience includes Control Data Corporation, General Dynamics, National Science Foundation and University of Texas.

PRELIMINARY CONFERENCE PROGRAMME

	Wednesday, May 23	
0800	Registration	
1000	Coffee	
1030	Opening Ceremonies	
1100	Keynote speaker Charles C. Wood, Information Integrity Investments, U.S.A.: Planning as a Means to Achieve Appropriate Data Communications Security.	
1200	Lunch	
1330	Session chair Per Hoving, Sweden	Session chair Jouko Arola, Finland
	Don Holden, Digital Equipment Corp. U.S.A.: The Digital Distributed System Security Architecture.	John Dobson, Univ. of Newcastle upon Tyne, U.K.: A methodology for analysing human and computer-related issues in secure systems.
	Yves Le Roux, Digital Equipment, France: Panorama of Technical Criteria used in Different Countries for the Security Evaluation of Information Technology Products.	John G Beatson, Databank Systems Ltd., New Zealand: Security — A Personnel Issue: The importance of personnel attitudes and security education.
1500	Coffee	
1530	Kurt Bauknecht, Christine Strauss, Zürich-Irchel University, Switzerland: Portfolio Techniques to Support Risk Management and Security.	Richard Hackworth, Coopers & Lybrand Ass. Ltd., U.K.: The outward looking contingency plan. Managing the external impacts of system security failures.
	Jerome Lobel, Lobel Consulting, U.S.A.: Proactive network risk management.	Karl Krueger, The World Bank, U.S.A.: Planning for Disaster Recovery in a Multi-Vendor, Networked Computing Environment.
1700		
1930	Concert at Espoo Cultural Center. Espoo City Orchestra cond. by Juhani Lamminmäki.	

	Thursday, May 24	
	Session chair Klaus Ditttrich, FRG	
0830	Keynote speaker Rüdiger Dierstein, DFVLR, FRG: Basic Features and Construction Principles for Trusted Information Processing Systems.	
0930	Keynote speaker Ib Bentzien, Bikuben, Denmark: EDP Safety and Usage.	
1030	Coffee	
1100	Session chair David Lindsay, U.K.	Session chair Andre Grissonnanche, France
	Sead Muftic, University of Sarajevo, Yugoslavia: Security in Open Distributed Processing (ODP) Systems.	Martin P.J. Kratz, Cruickshank, Phillips, Karvellas & Connauton, Canada: Managing the Virus Risk.
	Hans Peter Riess, Universität Karlsruhe, FRG: Modeling Security in Distributed Systems.	Harold J. Highland, Professor, U.S.A.: Computer Viruses and Factors to Consider when Buying an Anti-virus Product.
1230	Lunch	
1400	Rae K. Burns, Kanne Associates, Inc. U.S.A.: A relational DBMS Security policy.	Mark Tantam, Serious Fraud Office, U.K.: Trouble Ahead: Information Crime and Jurisdiction.
	Ehud Gudes, Halyan Song, Eduardo B. Fernandez, Ben-Gurion University, Israel: Evaluation of Authorization in Object-oriented and Semantic Databases.	Philip M. Stanley, Sydney University of Technology, Australia: Computer assisted investigation of computer crime.
	Coffee	
1600	Wayne Madsen, ENTEK, Inc. U.S.A.: Data Privacy: Legislation and Intelligence Agency Threats.	Linda T Taylor, Taylor & Zeno Systems, Inc. U.S.A.: Case tools and security: A Solution or a problem?
	Klaus Brunstein, Simone Fischer-Hubner, University of Hamburg, F.R.G.: Risk Analysis of "Trusted Computer Systems".	H. de Lange, Deloitte Dijkster Van Dien, accountants, The Netherlands: Auditing the SNA Environment.
1730		
1930	Banquet Dinner (Dipoli)	

PRELIMINARY CONFERENCE PROGRAMME cont.

	Friday, May 25	
	Session chair Martin Kratz, Canada	Session chair John Beatson, New Zealand
0830	Walter Fumy, Axel Pfau, Siemens AG, F.R.G.: Asymmetric Authentication Schemes for Smart Cards — Dream or Reality.	Peter C Thanni, EFT Informatica, U.K.: Phantom transactions in an ATM network.
	Hedvig Cnudde, Cryptech, Belgium: CRYPTEL: The practical protection of an existing Electronic Mail Systems.	Lars Arnkil, Esa Einola, Skopbank, Finland: POS Security — State of the Art in Finland.
1000	Coffee	
1030	P. Sarton, P. Capiteijns, Philips International B.V., The Netherlands: Corporate Information Security Policy — A Paper Tiger?	Knud E. Kristiansen, Sparekassernes Datacenter, Denmark: Information Systems Auditing — A Support to Management.
	Andre Grissonnanche, Mazars Salustro & Associates Conseil, France: MARION: A Comprehensive approach for Computer Risks Management.	Stewart Kowalski, University of Stockholm, Sweden: Computer ethics and computer abuse.
1200	Lunch	
1330	Hans von Braun, Hewlett—Packard, U.S.A.: Computer Network Security.	Robert R. Moeller, Sears, Roebuck & Co. U.S.A.: Separation of Duties, Audit Concerns and the Clark/Wilson Data Integrity Model.
	Session chair Juhani Saari, Finland	
1415	Keynote speaker Donn B. Parker, SRI International, U.S.A.: 16 Information Security Myths Debunked.	
1530	Closing Ceremonies	
1600	Coffee	
1630		

EXHIBITION

During the Conference there will be an Exhibition, where Information Security vendors demonstrate and exhibit their hardware and software products. The Exhibition is arranged close to the Conference area in Dipoli Congress and Convention Centre. It is basically a closed event for the participants in the Conference. The Exhibition will be open daily from 8.30 a.m. to 6.00 p.m. The participants are advised to visit the exhibition stands during intermissions and pre/post-lectures. Also personal invitations from the exhibitors to demonstrate their products can be expected.

ORGANIZING COMMITTEE

Ilmo Silvennoinen, Okobank, Chairman
Timo Tolsa, TALENTUM
Seppo Rautakivi, Finnish Information Processing Association
Juhani Saari, International Baseline Security
Auvo Sarmanto, Ministry of Education
Kalevi Tiihonen, Kemira
Raimo Voutilainen, Programatic, Secretary

STEERING COMMITTEE

Juhani Saari, Chairman
Klaus Dittrich, Programme Committee
Ilmo Silvennoinen, Organizing Committee
Jouko Arola, Economy

Cooperation

Information Processing
Association SIG/SEC
IIA, Finland Chapter
EDPAA, Finland Chapter

EUROPEAN PROGRAMME COMMITTEE

Klaus Dittrich, Zürich-Irchel University, Switzerland, Chairman
Jouko Arola, Postipankki Ltd., Finland
Per Hoving, Saab-Scania, Sweden
Andre Grissonnanche, XP Conseil, France
Knud Kristiansen, Sparekassernas Datacenter, Denmark
David Lindsay, Digital Equipment Corporation, England
Juhani Saari, International Baseline Security, Finland

NORTH AMERICAN/AUSTRALASIAN PROGRAMME COMMITTEE

Charles C. Wood, Information Integrity Investments, U.S.A.
John G. Beatson, Databank Systems Limited, New Zealand
William J. Caelli, Queensland University of Technology, Australia
Martin P.J. Kratz, Cruickshank, Phillips, Karvellas & Connauton, Canada
Tsuneo Kurokawa, Kogakuin University, Japan
Robert R. Moeller, Sears, Roebuck & Co., U.S.A.
Donn B. Parker, SRI International, U.S.A.

VENUE

Sixth International Conference and Exhibition on Information Security will take place at Dipoli Conference Centre from Wednesday, May 23, to Friday, May 25, 1990. The conference centre is located by the sea in Otaniemi, Espoo, about 10 km west of Helsinki.

REGISTRATION

The registration fee is FIM 3500/USD 800 before January 1, 1990. Registration fee after January 1 but before April 1 is FIM 4000/USD 900 and the registration fee for late delegates after April 1 is FIM 4500/USD 1000. Speakers and students registration fee is FIM 2200/USD 500.

Please return the registration form to the conference secretariat office, address: CONGREX (Finland), P.O.Box 151, SF-00141 Helsinki, Finland.

The registration desk at the conference site lobby will be open on Tuesday, May 22 from 12 am to 6 pm, and during the conference, daily from 8 am to 6 pm.

All payments, either in Finnish Marks (FIM) or US Dollars (USD) should be transferred to OKO Bank, Helsinki, Finland, account no. 500001-139665. Please enclose evidence of payment with your registration form. Make sure to indicate IFIP and your name on all money transfers.

We are sorry not to be able to accept personal or company cheques.

Payment by credit card will be charged to your account before the Conference.

ACCOMMODATION

Block reservations have been made for the conference period in the following hotels. The room reservations are made on a "first come first served" basis. No reservations can be guaranteed without full payment.

HOTEL DIPOLI

Address: Otaranta, 02150 Espoo

First class hotel situated in the neighbourhood of the conference centre Dipoli. Comfortable rooms are with shower, telephone and tv.

Rates/night, including breakfast: Single room FIM 575/USD 128, double room FIM 735/USD 163.

HOTEL KALASTAJATORPPA

Address: Kalastajatorpantie 1, 00330 Helsinki

Luxury class hotel situated about 5 km west from the city centre and 3 km from Dipoli conference centre. The rooms are of the highest standard and many of them have a sea view.

Rates/night, including breakfast: Single room FIM 620/USD 138, double room FIM 750/USD 167.

TAPIOLA GARDEN HOTEL

Address: Tapiontori, 02210 Espoo

Tourist class hotel situated in the centre of Tapiola, 3 km west from Dipoli conference centre. All rooms are with shower and telephone. Rates/night, including breakfast: Single room FIM 600/USD 134, double room FIM 720/USD 160.

HOTEL RAMADA PRESIDENTTI

Address: Eteläinen Rautatiekatu 4, 00100 Helsinki

First class hotel in the centre of Helsinki, opposite to the bus station, with good connections to Dipoli conference centre. All rooms are with shower, telephone, tv and minibar.

Rates/night, including breakfast: Single room FIM 610/USD 136, double room FIM 700/USD 156.

CANCELLATIONS

For cancellations made before March 15 all payments less cancellation fee of FIM 500/USD 112 will be returned. After March 15 until April 15 half of the payment will be refunded, and after April 15 no refund can be made.

Sixth International Conference and Exhibition on Information Security Espoo (Helsinki), Finland, May 23—25, 1990

REGISTRATION FORM

Please return this form and payment to: CONGREX (Finland)
P.O.Box 151
00141 Helsinki, Finland
Tel: +358 0 175 355
Tlx: 123585 cms sf
Fax: +358 0 170 122
before Jan 1, 1990
if you wish to take advantage of lower fee for early registration.

Room reservations can be confirmed only when CONGREX has received the hotel deposit of the total amount of the room reservation.

Please note that special hotel rates are valid only when the room booking is made through CONGREX and the total amount for the reservation has been paid as deposit.

CANCELLATION

All fees will be refunded for cancellations received by CONGREX before March 15 less the cancellation fee of FIM 500. After March 15 until April 15 50% of the payment will be refunded. No refund can be made after April 15.

Make sure to indicate IFIP and your name on all money transfers.

SOCIAL PROGRAMME

Espoo City Orchestra will give a concert sponsored by the city of Espoo at Espoo Cultural Center on Wednesday May 23, at 7.30 pm. Transportation will be arranged. Entrance is free for delegates and accompanying persons.

The Conference Banquet will take place on Thursday May 24 at 7.30 p.m. at Dipoli Conference Centre. The Banquet fee for the delegates is included in the conference fee; the banquet fee for accompanying persons will be FIM 300/USD 67.

PROGRAMME FOR ACCOMPANYING PERSONS

Helsinki and Espoo City tour

Tuesday, May 22
Duration: 2 hrs
Rate/person: FIM 110/USD 25

The tour will give you an overall view of the cities of Helsinki and Espoo.

Porvoo tour

Wednesday, May 23
Duration: 8 hrs
Rate/person: FIM 350/USD 78

The bus will drive to Porvoo, an idyllic old town. The tour will show you the most interesting sites in Porvoo. Lunch will be served in the beautiful Haikko manor. After a visit to Ainola, the former home of the famous composer Jean Sibelius, the tour will return to Helsinki and Espoo.

Hvitträsk tour

Thursday, May 24
Duration: 4 hrs
Rate/person: FIM 250/USD 56

Visit to Hvitträsk, the former home and studio of architects Eliel Saarinen, Herman Gesellius and Armas Lindgren. Lunch will be served at Hvitträsk restaurant. After lunch visit to Tarvaspää, former studio of the artist Akseli Gallen-Kallela.

PRE- AND POST-CONFERENCE TOURS

Cruise to Stockholm

Sunday, May 20—Tuesday, May 22

Rate/person: in A category double cabin FIM 1370/USD 305
in B category double cabin FIM 1260/USD 280
Supplement for single cabin upon request.

Tour price includes the cruise Helsinki—Stockholm—Helsinki, 2 overnights on board, 2 smörgåsbord dinners, 2 sea breakfasts and a sightseeing tour in Stockholm.

Post-conference tours to Lapland, Tallinn and Leningrad

Reservations are made upon request.

Arrangements and responsibility for tours

All excursions and tours are organized by CONGREX/Toolo Travel Ltd. If the number of participants in any tour does not reach 15 persons the organizer reserves the right to change the means of transport and/or the tour price accordingly, or cancel the tour.

All bookings should be paid in full when registering. Payments should be transferred to CONGREX (Finland); OKO Arkadia account no 500001-139665. Evidence of the bank transfer should accompany the registration form.

For cancellations made before March 15, 1990, payments will be returned. After March 15 until April 15 half of the tour price will be refunded. For cancellations made after April 15 no refunds are made.
