2nd Call for papers & Call for participation

21 - 24 May 1996

Island of Samos, Greece.

The venue of the Conference is the Doryssa Bay Hotel-Village, located right on the beach and 5' from Pythagorion (the City of Pythagoras), on the Island of Samos.

Doryssa Bay Hotel-Village is a four-star complex, including a Hotel and a whole traditional Village. It is a luxurious summer resort, built with respect for the architectural and historical traditions of the island, but at the same time modern with the most up-to-date amenities.

The Conference format will be as follows:

Tuesday	21 May- Full day
Wednesday	22 May- Full day
Thursday	23 May- Full day
Friday	24 May- Morning only

• Events that will take place during the Conference include:

• Keynote lectures (plenary)

• Refereed paper sessions

• Student research papers session

• Sessions for the presentation of the results of major information security projects, funded by the European Commission (under AIM, ESSI, ESPRIT, INFOSEC, RACE, TEDIS, etc. Programmes).

TOPICS

The following list of topics gives an indication of the areas to be covered at the Conference: Information security management; security in distributed and co-operative computing environments; information systems security evaluation, certification and accreditation; practical applications of Cryptography; information security standards; information security and society; privacy issues; risk analysis and management; development of secure systems; legal issues in information security; intrusion detection systems; formal security models; smart card technologies; information security education, training and awareness; malicious software; security in EDI systems; database security; information security technologies for, and applications in sectors such as Health, Banking, Insurance, Government, etc.

INSTRUCTIONS TO AUTHORS

Authors must submit five (5) laser-quality printed copies of their full paper. Each paper must not exceed 5000 words and must have an abstract, a list of key-words and a separate cover page. This cover page must include the title of the paper, full names of all authors, their contact addresses, telephone and fax numbers, e-mail addresses and point of contact if more than one author. Papers must be written and presented in English.

The five copies of the paper should be sent by mail (preferably registered) or courier to:

Prof. Sokratis Katsikas
Programme Committee Chairman, IFIP/SEC '96
University of the Aegean, Research Unit
30 Voulgaroktonou Street
Athens GR-11472, Greece

Written release for publication and copyright will be required for all accepted papers, before their final acceptance. At least one of the authors of the accepted papers must register for the Conference and present the paper.

REFEREEING PROCESS

Every submitted paper will be refereed in accordance with the established procedures for international Conferences. To ensure acceptance of high quality papers, each one of them will be double and blind refereed.

All papers presented at IFIP/SEC '96 will be included in the Conference proceedings. The formal proceedings of the Conference will be published by the official publisher of IFIP. Every effort will be made in order to distribute the copies of the formal proceedings during the Conference.

IMPORTANT DATES

All submitted papers must reach the Programme Chairman by:
July 15, 1995

Notification of acceptance or rejection will be mailed on or before:
December 1, 1995

Final complete camera-ready papers must be received by:
February 1, 1996

AWARDS

The Kristian Beckman Award, as well as a Best Student Paper Award, will be made.

Graduate students are encouraged to submit papers, in which they appear as principal authors, to the student paper contest. Papers submitted to this contest should bear the marking "For student paper contest" on the first page. The student author of the best paper will be awarded free registration to the Conference (all students are eligible for reduced registration fees).

GREECE

Greece is not just a historic, friendly and peaceful European country. Greece is not just the place where democracy has been born. Greece is everywhere. The "mother of thought" - philosophy - and the root of the sciences - mathematics - are of Greek origin in most languages; also Greek is the root of the word that denotes the "knowledge of the centuries", i.e. history. Almost universal in the Western languages are the Greek words and institutions: theatre, museum, orchestra. Greek, finally, are the myths which as connecting links lead Europeans to the emotions, uplifting experiences and passions that mark the solidarity of the group within its eventful history.

More than 100 Greek islands provide the guest with the opportunity to meet unique experiences. The island of Samos is one of the biggest Greek islands, located south-east, somewhere in the Aegean Archipelago where Europe meets the Eastern tradition and mystery. The Aegean sea is blue and crystal clear with a sun shining gently for several hours a day; no water or air pollution has been ever witnessed around the island of Samos. Olive trees are very popular all over the island. Grapes are also popular, producing the famous wine of Samos. Sandy beaches are all around.

ACCOMMODATION

The (four-star) Doryssa Bay Hotel-Village provides two means of internationally high standard accommodation: Hotel rooms and Village apartments. Each Hotel room is air-conditioned, with its own bathroom, telephone, music and mini-fridge. Each Village apartment is independently located within the area around the hotel, and it is air-conditioned, with kitchen facilities, refrigerator, individual bathroom, telephone and music.

Prices, per person per day (full-board) are as follows:

	Hotel	Village
Sharing double room	95 \$	105 \$
Single occupancy	140 \$	160 \$

The above prices include:

- **Full-board** accommodation (including breakfast, lunch and dinner).

- **Transportation** from the airport of Samos to Doryssa Bay, and vice-versa.

In Doryssa Bay the guest can find a private sandy beach, a sea-water pool, a wide choice of water sports, a tennis and a volley-ball courts, a mini golf, a Ping-Pong, billiards, a sea-side restaurant, a traditional Greek tavern, a self-service restaurant, a live music program, and a bar.

All fees are payable either in US dollars or in Greek drachmas (current rate: 1 US\$ = 240 drachmas). Final prices will appear in the Registration Announcement.

In the extreme case the number of delegates exceeds the potential of Doryssa Bay, alternate accommodation will be provided to hotels of a similar quality, in equivalent financial terms, the hotels being located within walking distance from Doryssa Bay.

THE CLIMATE

Greek islands provide perhaps the most healthy and mild climate all over the world. During late May (late Spring, in this area of the world) the average temperature is around 16°-23° Celsius (60°-73° Fahrenheit). The sun shines for more than ten hours a day.

Rain is unusual, and humidity is relatively low (usually less than 60%), even next to the sea. The temperature of the sea-water is usually around 20° Celsius. Strong winds are rare.

AIR TRAVEL

Greece is located at a very convenient place for all travellers flying from and to Europe, Africa or Asia. (Athens-London 3.5h, Athens-Amsterdam 3h, Athens-Frankfurt 2.5h, Athens-Rome 1.5h, Athens-Paris 3h, Athens-New York 9h, Athens-Budapest 2h, Athens-Johannesburg 8h, Athens-Cairo 2h). Hundreds of direct flights connect Athens, the world-famous historical capital of Greece, daily to many cities all over the world, including all major cities of Europe.

Olympic Airways is the national Greek airline. Other airlines, connecting Athens directly to points abroad, include: Air Canada, Air France, Alitalia, Aeroflot, Austrian Airlines, British Airways, Cyprus Airways, DELTA, El-Al, IBERIA, Japan Airlines, KLM, Lufthansa, MALEV, Qantas, SABENA, SAS, Singapore Airlines and Swissair.

Samos is one of the biggest, most pleasant, peaceful, beautiful and "green" Greek islands. Three flights connect Samos to Athens, every day (flight duration 45'). In addition, many charter flights connect Samos directly to several European cities (i.e. Amsterdam, Brussels, Birmingham, London, Vienna, Paris, Frankfurt, etc.).

For sea lovers, there are at least two ships daily, connecting Samos to Piraeus, Athens harbour, located 25' from the airport of Athens. It takes the ship ten hours to reach Samos, sailing across the always blue and crystal clear Aegean Sea.

SEC '96 CAR RENTAL REPRESENTATIVE

Low prices will be arranged for Conference delegates wishing to rent a car on the Island of Samos from the official SEC '96 Car Rental Representative. Details will be provided in the Registration Announcement.

SEC '96 TRAVEL AGENT

Low prices will be arranged for Conference delegates wishing to book and buy their tickets from the official SEC '96 Travel Agent. Details will be provided in the Registration Announcement.

Conference General Chair

Dr Dimitris Gritzalis, GCS, Greece

Honorary Conference Chair

Em. Prof. Harold Highland,
State U. of New York, USA

Programme Committee

S. Katsikas, U. of the Aegean, Greece (Chair)
A. Bakker, BAZIS, The Netherlands
W. Caelli, Queensland U. of Technology, Australia
J. Darzentas, U. of the Aegean, Greece
A. Patel, U. College Dublin, Ireland
R. Posch, T. U. of Graz, Austria
W. Ware, RAND, USA

Organising Committee

J. S. Darzentas, U. of the Aegean
T. Mavroyianni, U. of the Aegean
V. Moussas, KYROS
T. Spyrou, U. of the Aegean

Referees

N. Alexandris, U. of Piraeus, Greece
B. Barber, NHS/IMC, United Kingdom
D. Batchelor, Sussex Systems, Canada
